- FREE from wheat gluten and soya
- 100% Non-GM formulation
- Easy to feed "mini-pellet" form

Contains

14

Active Ingredients

Glucosamine – A natural polymer that connects bones and joints to provide cushioning during movement. It is one of the critical building blocks of joint cartilage.

Chondroitin – An important structural component of cartilage and provides much of its resistance to compression.

MSM – (Methylsulfonylmethane) is an organo-sulphur compound. Sulphur is an essential building block for healthy bones and joints and is useful for the support of a healthy immune system.

Hyaluronic acid – A natural substance present in your dog's body. It is the major component of synovial fluid and helps to lubricate joint structure.

L-Glutamic acid – An important metabolite for the cells lining the gut; helps promote glutamine generation, supporting absorptive function and structural integrity.

Curcumin / Piperine – Curcumin is the active isolate of turmeric and helps support the dog's natural anti-inflammatory response. Piperine is an alkaloid found in black and long pepper and helps to support the bio-availability of curcumin.

Collagen matrix – Collagen is one of the most abundant proteins in the body and is a major constituent

of bone, cartilage, tendon and other connective tissue. It helps connective tissue to be strong and provides cushioning for various parts of the body.

Green-lipped mussel – Provides a natural and highly bio-available source of chondroitin. It also provides omega-3 fatty acids in a highly bioavailable form to help support natural anti-inflammatory response.

Salmon oil – Rich in omega-3 fatty acids and phospholipids. Salmon Oil complements Green-lipped mussel extract to provide highly bioavailable sources of EPA & DHA

Vitamin C – Vitamin C helps produce collagen, a protein needed to develop and maintain healthy teeth, bones, gums, cartilage, vertebrae discs, joint linings, skin and blood vessels.

Vitamin E 500 – Vitamin E compounds, particularly tocopherols, are antioxidants that help neutralise free radicals. Vitamin E compounds are incorporated into the cell membranes and help maintain their integrity throughout the body.

Manganese – Acts as a co-factor in the enzyme process of synthesising Glycosaminoglycans, cartilage matrix and synovial fluid. It also has beneficial antioxidant properties.

Beet Pulp – A good source of dietary fibre and provides prebiotic support for a healthy digestive system.

Oatmeal – Oatmeal provides vital beta-glucans which support a healthy digestive system and immune response.

Daily Feeding Guideline

- Add to the dog's regular daily food.
- Can be given in a single amount or divided between meals.
- Ensure your dog has access to fresh, clean water at all times.

Small Dogs	Up to 15kg	¼ - ½
Medium - Large Dogs	16kg - 30kg	½ - 1
Large - Very Large Dogs	31kg - 60kg	1 - 2

- Dogs over 60kg - allow ½ to 1 measure per 30kg bodyweight.
- Measure included in the pack
- 1 Level measure = 10g

* based on small dogs feeding rate.

Stinky spray

Helps keep those bad smells away! Revitalising papaya and coconut fragrance will keep your dog smelling fresh. Contains soothing lavender and witch hazel, moisturising provitamin B5 and saccharomyces ferment to help eliminate malodors. Suitable for frequent use on all breeds as well as puppies. Regular use can help to prevent matting.

Available size: 250ml

* Over 90% natural ingredients.

Sunblock Powder for Animals

**FOR ANIMALS**

A natural mineral powder that blocks all UVA & UVB rays

- Long-lasting. Sunblock Powder for Animals typically lasts a minimum of 24 hours
- Complete protection against both UVA and UVB rays
- Easy to apply using the sponge provided
- The natural non-irritant formula creates a smooth coating that can't be rubbed off easily
- Can be used on all areas susceptible to sunburn, including areas that have already been damaged by the sun
- The non-sticky formula does not attract dirt or dust
- Water-resistant – does not need to be reapplied after drinking
- Cost-effective – a small amount covers a large area!

Lillidale's Sunblock Powder for Animals sits on the skin and acts as a barrier, reflecting the sun's rays. The powder does not get absorbed and as such does not need to be reapplied as often, providing reliable protection all day long.

How to Use:

- Apply a light covering with the sponge to all areas susceptible to sunburn
- Apply daily when there is intense sunlight

Active Ingredients: Titanium dioxide, Zinc oxide, Zinc stearate

Available Size: 35g and 90g, sponge included

Fly Repellent - An effective blend of ingredients for use against flying insects.
Available Sizes: 500ml & 1L Spray

Mane & Tail Spray - For a tangle-free mane and tail, and a silky shine.
Available Sizes: 500ml & 1L Spray

Herbal Shampoo - A rich yet gentle shampoo containing natural herb extracts.
Available Sizes: 500ml & 4L

Medicated Shampoo - A mild antibacterial shampoo to cleanse and condition.
Available Sizes: 500ml & 4L

Tea Tree Shampoo - A soothing shampoo containing natural tea tree oil.
Available Sizes: 500ml & 4L

Lavender Body Wash - A refreshing rinse-free formula to cleanse and soothe.
Available Sizes: 500ml & 4L

Hoof Oil - A naturally rich enhanced formulation to help prevent brittle hooves.
Available Sizes: 500ml & 4L

Hoof Balm - A translucent hoof balm to help prevent split hooves.
Available Size: 400g
